INSTRUCTION BOOKLET

VIVENDI UNIVERSAL

WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.

IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

Some people (about 1 in 4000) may have seizures or black outs triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions Altered vision

Eye or muscle twitching Involuntary movements

Loss of awareness Disorientation

To reduce the likelihood of a seizure when playing video games:

- 1. Sit or stand as far from the screen as possible.
- 2. Play video games on the smallest available television screen.
- 3. Do not play if you are tired or need sleep.
- 4. Play in a well-lit room.
- 5. Take a 10 to 15 minute break every hour.

WARNING - Repetitive Motion Injuries

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

WARNING - Battery Leakage

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the
 correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

Your Mission

Team up with Secret Agent™ Barbie™ as she trails an international thief in this new spy adventure filled with action and cool hi-tech gadgets! Royal jewels-including emeralds, rubies and diamonds—are disappearing all over the world, and the clues point to one mastermind villain—the evil Camille! Help Barbie™ stay undercover while she tracks the culprit through England, China, Italy and Mexico, and unravels the plot. Solve puzzles to crack codes, and use hi-tech gadgets like the robot spy puppy, wrist glider, stealth ring and smoke screen compact to uncover the plot and save the day!

• Getting Started

- Be sure the Game Boy® Advance POWER switch is OFF.
- Insert Secret Agent™ Barbie™: Royal Jewels Mission Game Pak into the Game Boy® Advance system.
- Turn the POWER switch ON.
- When the Barbie™ title screen appears, press START; this will take you to the Main Menu.

- Starting Your Mission

New Mission

Use the Control Pad Up-Down to highlight New Game, and press the A Button to confirm your selection.

Continue

If you want to continue a mission, use the Control Pad Up-Down to highlight Continue and press the A Button to confirm your selection. You will need to enter the six-letter password that you were given before you quit your last game. Use the Control Pad Left-Right to scroll through the letters. When you find the letter you want, press the A Button for confirmation. You will be taken straight to the secret agent headquarters to continue your mission.

Headquarters

Headquarters is the main action center for Barbie™ and the secret agent team. At headquarters, not only can you visit the four countries featured in the game, but you can also go to the training center, view the Secret Vault, catch up on the story so far, or adjust the sound settings.

Training

At the training center, you can practice all the secret agent skills you'll need to complete the game. New actions, gadgets, and puzzles are added to the list as they are introduced to the game. Scroll through the list using the Control Pad Up-Down. To make your selection, press the A Button.

Sound

You can turn the music in the game on or off. To make your selection, press the A Button.

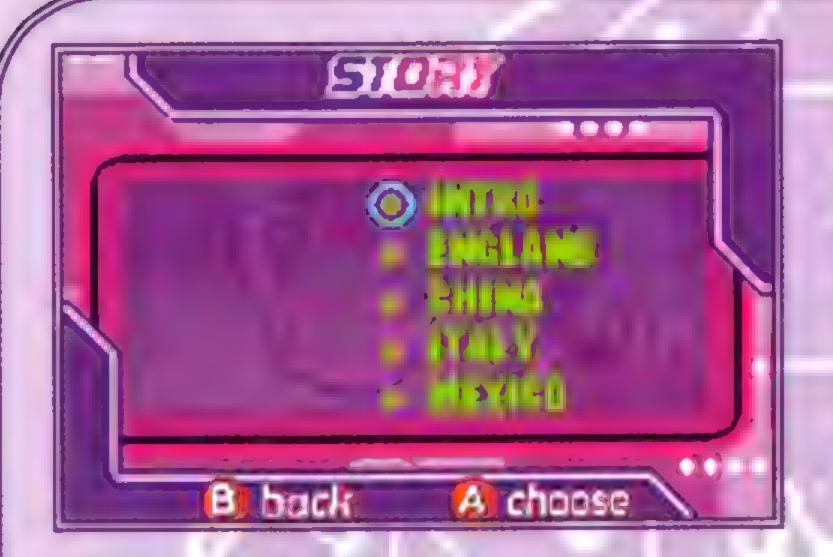

• Missions

When you start a new mission, you will be taken to the map screen, where you will see the exciting international locations to which you can travel. There are four fun mini-missions to complete before you move on to the next location. You must go to the countries in the correct order. The secret

agent team will mark the available countries with a red dot. You will also see a red dot if you haven't completed all four of the mini-missions for that location. When you have completed all the minimissions, the location will have a green light next to it. You can go back and visit these locations whenever you like.

Use the Control Pad to highlight the location you want to visit, then press the A Button to start your mission.

Story

Catch up on the story so far by looking at all the story pictures and the messages from headquarters. You will have access to all the secret information that Barbie™ has been sharing with the rest of the secret agent team.

- Secret Vault

Some very important secret files are hidden throughout the game, and the secret agent team needs your help finding them. There are secret files for Barbie™ to find in every mini-mission. When you see a secret file, help Barbie™ run up and collect it. A counter on the screen shows you how many secret files there are in each mini-mission and how many you have collected so far.

When you have collected all the missing files in a mini-mission, you will unlock a special surprise inside the secret vault. There is one surprise for each of the 16 mini-missions. You must collect

all the secret files in a mini-mission to gain access to the special surprises, so keep your eyes open and collect as many as you can!

Use the Control Pad Up-Down to scroll through the list of surprises, and press the A Button to activate one. When the surprise is activated, you will see a green light to the left of it.

When you have collected all the secret files in a mini-mission and opened the secret in the vault, you will see a secret file icon next to the name of the location on the mini-mission selection screen.

Expert Mode

There is one surprise you can unlock simply by finishing the game regardless of how many secret files you collected— Expert Mode. At the end of the game, Expert Mode will appear on the list in the Secret Vault. When it is switched on, the game becomes more challenging as there are no cover power-ups and you will lose more cover if a guard sees you. When you are in Expert Mode Barbie™ will wear her special purple secret agent outfit.

PDA (Personal Digital Assistant)

Help from Headquarters

From time to time, headquarters will need to contact Barbie™ and give her instructions or hot tips on the mission. The PDA will pop up showing a picture of the team member and the message for Barbie™. When you have finished reading the message, press the A Button to move on to the next screen. To close the PDA, press the A Button again.

Puzzles

The PDA is the perfect gadget for solving puzzles and cracking codes that will enable you to unlock doors and get into top secret areas. When there is a code to crack, you will see the unlock icon next to the security panel. Walk Barbie™ up to the icon and press the B Button to start the puzzle.

When the puzzle has been solved, Barbie™ will put the PDA away until you need it again. The locks are not always next to the doors, so make sure you look around to see if there is anything else to unlock. For more information on solving the different puzzles, see the Puzzle Hints section in this manual.

- Secret Agent Gadgets

Becky™, the cyber sleuth, has selected some cool hi-tech gadgets that will help you complete your mission. They can be used to distract guards, go undercover, and get to hard-to-reach places. Becky™ will start you off in each location with two gadgets.

The icon at the top left corner of the screen will show you which gadget is active. To switch gadgets, press the L or R Buttons. When you want to use a gadget, press the B Button to activate it. To turn off the gadget, press the B Button a second time.

Some gadgets can be used only in special "active" zones.

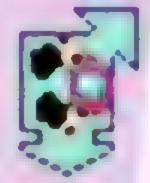

Stealth Ring

The stealth ring makes Barbie™ invisible to guards and hi-tech security devices for a short time. Next to the stealth ring icon, at the top left of the screen, is a power meter that will show you how much power is left before the ring turns itself off. Act quickly to get past undetected.

Wrist Glider

The wrist glider allows Barbie™ to glide up to high areas and rooftops that are normally out of reach. When you are in an active area, the wrist glider icon will automatically appear at the top left of the screen. Pressing the B Button will let Barbie™ glide up to the new location.

Wrist Glider Active Zone

Look for the wrist glider icon above Barbie™—this will let you know when you can glide up.

Robot Spy Puppy

The robot spy puppy is a great gadget if you want to distract a guard or get into places where Barbie™ can't fit. To use this gadget, press the B Button and the robot spy puppy will parachute in to help you! Use the Control Pad Left-Right to move the puppy around the screen; press the B Button when you want the puppy to rocket off until you need him again. You can't move Barbie™ until you press the B Button.

To distract the attention of a guard who is blocking your way, walk the spy puppy up to the guard and press the A Button. The spy puppy will get on his back legs and bark. You will see a question mark above the guard's head when you have his attention. Walk the puppy away from the guard using the Control Pad Left-Right, and watch the guard follow him! Once the guard is out of your way, press the B Button to pass the control back to Barbie™.

Smoke Screen Compact

The smoke screen compact allows Barbie™ to sneak past guards without being seen. To use the smoke screen compact, move up close to the guard and press the B Button. While the guard is distracted, quickly pass by.

Staying Undercover

It is very important that Secret Agent™ Barbie™ stay undercover throughout the mission. If Barbie™ loses all her cover while she is on a mission, she will have to start over.

Cover Meter

The cover meter, in the top right corner of the screen, shows how much cover Barbie™ has. Her cover will go down if guards see her or she is detected by a security device.

Cover Power-ups

Look for these cover power-ups to increase your cover.

Losing Cover

When Barbie™ is losing cover, this icon will appear.

• Obstacles

Run, jump, and tumble, or blend into your surroundings to avoid these obstacles:

Guards

Lots of guards watch doors and top-secret areas. If a guard catches Barbie™, she will lose some of her cover. Guards see Barbie™ only if they are facing her, so sometimes she can sneak past them without being seen.

Security Robots

These robots float above the ground looking for Barbie™.

Robots make Barbie™ lose cover if they touch her, but they aren't able to see her from a distance.

- Controls

Run Press the Control Pad Left-Right to make Barbie™ run.

Jump Press the A Button to jump over objects and onto platforms.

Dive Press the A Button with the Control Pad Down to dive roll.

Roll Barbie™ can roll through spaces that are too small to run through and roll under obstacles to avoid being seen.

Climb Press the Control Pad Up-Down when Barbie™ is in front of a ladder. Barbie™ is invisible to guards when she is above them.

Duck Press the Control Pad Down to duck behind things and stay out of sight.

Hide Press the Control Pad Up when Barbie™ is in front of a hiding place like a doorway. Barbie™ will slip into the doorway and become invisible to guards and security robots.

Use Press the B Button when the gadget icon is showing on the Gadget top left of the screen.

Switch Press the R or L Buttons to switch between your two gadgets.

Gadget

Pause Menu

Press START at any time during a game to go to the Pause Menu. Use the Control Pad Up-Down to highlight one of the choices below.

Then press the A Button to make your selection:

- Continue Mission Continue the mission you are playing.
- Music On/Off Turn the music in the game on or off.
- Quit Mission Return to headquarters, where you can select a new mission or quit the game.

Mission Locations

There are four exciting locations to travel to on your mission and 16 mini-missions in all!

England

There has been a theft at the Royal Tower—time to jump into action. Your mission starts here!

Mini-Missions

- Tower Roof
 London Subway
- 2. The Royal Tower 4. Street Chase

China

A clue leads to a secret hideout and an exotic palace where the plot begins to unfold.

Mini-Missions

- 1. City Streets 3. Golden City
- Secret Hideout
- 4. The Palace

Italy

Another crime is being planned, so it's time to jet off to Italy and stop the thief in this high-fashion destination!

Mini-Missions

- 1. Opera House 3. Fashion District
- 2. Canal Chase 4. Scuba Search

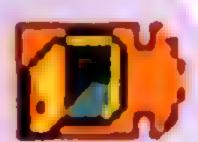

Mexico

The secret agent team has uncovered the hi-tech hideaway of our mastermind villain in the most unexpected place!

Mini-Missions

- 1. Sunny City
- 3. Hi-tech Hideaway
- 2. Aztec Pyramid 4. Courtyard Chase

End of a Mini-mission

When you reach the end of a mini-mission, this exit icon will appear. When you run past it, you will exit and return to headquarters for your next mini-mission.

> Puzzle Hints

Short Circuit

To get through some locked doors you will need to shut down a computer. On the screen you will see a square computer chip moving around. Use the Control Pad to move the pointers around the edge of the screen and line them up with the computer chip. When the first pointer along the top of the screen lines up with the chip, quickly press the A Button. This will send out a line to trap the computer chip. If you miss the computer chip, the line will turn red and disappear.

Once you have trapped the computer chip with a line going up and down, you will also need to trap it on a line going left to right. Line up the computer chip with the pointer on the left of the screen and press the A Button. When the computer chip is locked both vertically and horizontally, the door will open.

Scanner Ball

On the screen you will see a scanner ball bouncing around the room. Use the Control Pad to move the blue dot around the edge of the screen. When you are sure the scanner ball won't touch you, press the A Button to draw a line across the room and block that area off from the scanner. The secure areas will be shown in blue.

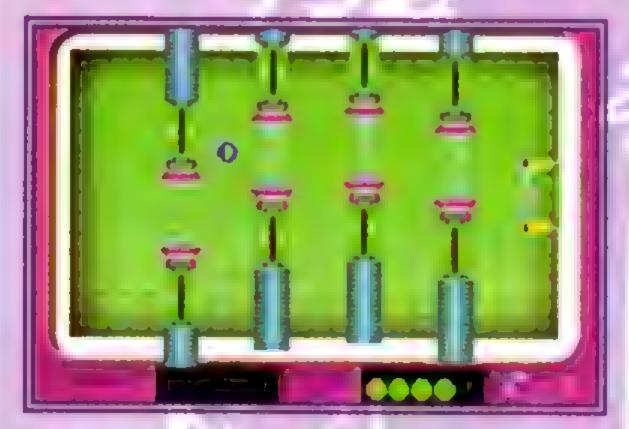

You will have to start again if the scanner ball touches the line while you are drawing it across the room, so be sure to watch the direction the scanner ball is moving. The number at the bottom left of the screen will tell you how much of the room you need to seal off to complete the puzzle. The number at the bottom right will show you how much of the room has been sealed off so far.

Double Catch

To decode and unlock doors in some of the hi-tech areas, catch the blue balls of energy as they are released from the security system. The round object in the middle of the screen throws out balls of energy, which you can catch in the nets along the left and right

sides of the screen. Use the Control Pad Up-Down to move the nets up and down. The energy balls start to lose energy and disappear when they bounce into the walls, so you must act quickly!

Slip Lock

Your PDA can help you get through areas that are off-limits. At the left side of the screen, you will see the blue energy ball. You need to move the ball through the gaps in the bars to crack the code. Wait until the gap in the bar lines up with the blue ball, then quickly press the Control Pad Right to send the blue ball

through it. When the ball is all the way to the other side of the screen, the door will open and you can sneak through.

Be careful not to let the ball touch the bars too many times or it will turn red and disappear. You will then have to start over.

Hints and Tips

General

- Always check the training center for instructions on using gadgets, solving puzzles, and moving through the levels.
- Use the L and R Buttons to switch between gadgets.
- There is a power meter on the stealth ring. Make sure you have enough power before you try to use the ring.
- You can use only one smoke screen compact at a time. If you miss with the first one, wait until the smoke has stopped before trying to use the second.
- Be on the lookout for secret files—they look like CDs. Collecting all
 of these will open special surprises back at headquarters.
- Remember, the guards cannot see you when they are facing away from you.
- Sometimes objects are too high to jump onto. Try to find an object nearby and jump from one to the other.

England

- To get onto the two scaffolding platforms on the roof, jump across from one of the glass skylights.
- If there is a guard standing at the top of a ladder, wait until he is facing the other way before climbing the ladder.
- On the subway, be ready to move as soon as you solve a puzzle, and unlock a door to avoid being seen by the guards.
- When there is more than one guard on patrol, make sure you move to a safe place while you wait for your stealth ring to recharge, or switch to the smoke screen compact.

China

- Use your wrist glider to get up onto roofs. You will see the wrist glider icon appear at the top left corner of the screen when you are in an active area.
- To get to the secret files, you may have to go back to areas you have already passed.
- Make sure there are no guards coming before climbing down the ladders.

Italy

- Remember to hide in doorways when you see an arrow pointing up above Barbie™—this way, you can wait, unseen, until a guard has walked past.
- The robot spy puppy is great for distracting guards in the opera house and fashion district. Walk the puppy up to the guard and press the A Button. Now walk the puppy away from you and watch the guard follow!
- Try not to touch the underwater robots or you will lose some cover.

Mexico

- Sometimes a puzzle will unlock a door in an unexpected place, so be sure to look around the rest of the level.
- There are a lot of guards in the city. Be ready to switch gadgets and use your stealth ring after wrist gliding onto a platform.
- As soon as the large blue and red robots lose sight of you, they will go back to resting and stop following you. Use your stealth ring to hide from them.
